

Small Business

Overview

The mission of the small business practice is to provide a full range of high quality legal services to new, young and growing businesses.

The group brings the talents of the firm's wide ranging practice areas, as well as its experience in representing emerging businesses, to the many and sometimes complex issues that face smaller organizations. The group has represented hundreds of start-up and small companies, in virtually every industry including agriculture, communications, construction, energy, engineering, hospitality, financial, high-tech, manufacturing, media, medical, not-for-profit, publishing, retail, software, sports, transportation, wholesale trade and individuals involved in various entrepreneurial endeavors.

With recognition of the budgetary constraints that are naturally imposed on smaller companies, the firm offers fixed fee and alternative billing arrangements in addition to traditional hourly billing.
