

## Sexual and Other Workplace Harassment Training

To combat sexual and other harassment in the workplace, every employer in New York State, regardless of size, must provide documented sexual harassment training for all employees.

### To comply with the state regulations, the training must:

- Be interactive
- Explain sexual harassment using examples
- Inform employees about laws regulating harassment, reporting procedures and legal rights available to victims
- Address conduct by supervisors, and additional responsibilities for supervisors
- Be completed annually

With vast experience preventing and defending sexual and other workplace harassment claims, Bond will provide a program to your organization that meets the standards set by the state.

Bond's interactive web-based training is available in English and Spanish and is updated annually. The training includes the New York State sexual workplace harassment hotline, which all employers must provide to their employees.

Discount pricing is available for larger employers and for employers with their own Learning Management System (LMS).

### Bond offers these versions of the web-based training:

- New York State: employee and supervisor (English)
- New York City: employee and supervisor (English)
- New York City: employee (Spanish, suitable for any NYS employee)
- Federal: employee and supervisor (English: for all states except NY and CA)
