

TRADEMARK, COPYRIGHT AND BRAND PROTECTION

Securing Your Brand. Guarding Your Goodwill.

In a marketplace teeming with competition, the challenges of establishing and protecting your brand—your key to communicating the quality and uniqueness of your products and services—grow more intense every year. And, as technology evolves and as non-traditional branding applications proliferate, building the value of your goodwill and creating core equity become more important—and more difficult to achieve.

Thriving in this aggressive environment requires the skilled, vigilant involvement of an experienced intellectual property legal team with a regional, national, and global reach. Clients rely on Bond's experience in all phases of brand protection and IP law: trademarks and advertising, copyright, trade secrets, trade dress, privacy, and licensing and marketing arrangements.

Bond's Trademark, Copyright and Brand Protection team supports clients of all sizes and in all phases of development. Our clients are significant players in industries such as medical and mechanical devices, computer software and hardware, manufacturing, pharmaceuticals, telecommunications and e-commerce technologies.

As needed, we assist clients with IP matters that stem from mergers and acquisitions, financing and other transaction activity.
